

SUMMARY

At Symbiosis Technology, I led EPUB and XML development projects, showcasing my expertise in creating efficient and visually appealing digital publications. I focused on HTML, CSS, and XML technologies, ensuring seamless e-book rendering and data organization. I collaborated with writers and stakeholders to maintain content accuracy and adhered to industry standards. My dedication to delivering high-quality results within strict timelines earned recognition from the project team. As a Software Engineer apprentice at Bridgelabz Solution Private Limited, I gained hands-on experience in software development, assisting in design and implementation, resolving technical issues, and optimizing code performance. I participated in mentoring sessions with experienced engineers, nurturing my technical skills and understanding of project methodologies. My commitment to learning and professional growth was acknowledged as an apprentice engineer.

EDUCATION

K L University
